

2022 Sequim Association of Realtors Affiliate Membership

What is an Affiliate?

Business experts who provide products or services that benefit Realtors and their clients collaborate with the local real estate community through Realtor Association Affiliate programs.

Businesses apply for membership and are approved based on reputation and appropriate services. Common business types found in Affiliate programs are lenders, contractors and home inspectors but any business may apply. The application and approval process breeds confidence for Realtors® and their clients as they seek the professional help of businesses during or after the home selling process.
